

23RD-24TH NOVEMBER 2019
DURHAM UNIVERSITY

DURHACK 2019 marks the fourth iteration of Durham University Computing Society's flagship hackathon. This year, join us in hosting **150** hackers to create, innovate and push technology to new limits!

A HACKATHON is a weekend-long invention marathon where students come together in teams of 2-5 to create solutions to problems using whatever technology is available to them. The best projects go on to win prizes, where **creativity**, **ingenuity** and **style** are rewarded.

Your sponsorship will help make this a reality.

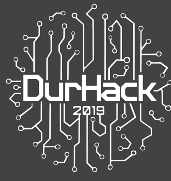

WHAT DO YOU GET OUT OF SPONSORING DURHACK?

Spread your brand to the developers of the future.
Test the potential of any APIs you have to offer.
Direct line of recruitment with capable and entrepreneurial developers.

HOW CAN YOU ENGAGE WITH DURHACK?

Send mentors to actively engage with hackers.
Bring some cool tech to showcase your culture.
Set hackers a challenge using your API or data set.
